*L*ooking ahead

Veterans' needs are expanding, particularly in mental health care and family services. Therefore, the Foundation is actively soliciting funds for the Virginia Wounded Warrior Program and to enlarge the Foundation's endowment.

The Virginia Wounded Warrior Program coordinates mental health and other services to support veterans and their families. While some state funding has been provided, the Foundation is seeking private funding to help meet the needs of Virginia's wounded warriors.

The Foundation endowment must be expanded to support requirements and funding contingencies associated with:

- expansion of the Sitter & Barfoot Veterans Care Center in Richmond;
- veterans care centers planned for Hampton Roads and Northern Virginia;
- Virginia's two state veterans cemeteries, located in Amelia and Suffolk, and construction of a third state veterans cemetery in Dublin, slated for opening in 2010.

The Foundation Support Fund provides resources for Foundation operations, such as education and fund raising, ensuring that other contributions directly support veterans programs and are not used for Foundation operational activities.
